Connecting Music Directors to the Professional Music Community

The workshop with the conductor was excellent. The students enjoyed his style and were able to accomplish a lot of learning. Thank you for everything!

Kirk Linton, St. Stephen Elementary Junior High

The Clinic Line has been a godsend for my program as the clinicians are excellent about working on the concepts I need covered. I appreciate the time and effort it saves me to get the clinic off the ground, be it an in-school clinic or out-of-town band camp. The Clinic Line really is an invaluable service and needs to be in every band director's "repertoire."

Brian Thorlacius, Queen Elizabeth Jr/Sr High School

Thank you and all of the clinicians so much for making our day the success that it was. The kids were so excited, and even after a long day of playing, were excitedly talking about their plans to go home and practice with friends tonight! I am amazed with the progress the kids made in such a short amount of time.
